

Détail de l'offre : Business Systems Analyst SAP FICO

Recruteur	
Référence	19D1552633837
Titre de l'offre	Business Systems Analyst SAP FICO
Description de la mission	About the Job

Within the DAN'IS Benelux organization, the IS Finance Team provides support to Finance key users based on a shared services delivery model for both corrective and evolution aspects regarding Group applications in scope, i.e. SAP FI-CO, Readsoft (incl Process Director, BaVel, Ediwin, WorkCycle, Readsoft Invoices), Concur, Nakisa.

The Key Users we support are predominantly from the Finance Benelux Team. Our scope includes about 15 companies from all 3 Health centred Businesses of Danone (Essential Dairy & Plant-based, Waters, Specialised Nutrition), ranging from Global Headquarters and Research Centre for Specialised Nutrition, to Sales Units and Supply Points from all 3 Businesses, as well as the Global Procurement organization of Danone.

As a Business Systems Analyst, you will act as a liaison between the Finance business community and the Local and Global Danone IS/IT Teams to resolve Incidents and design and implement Enhancements in both support mode and project. This position elicits and analyses business needs for assigned projects, communicates with and influences stakeholders and participates in determining if the solution fits with the long-term strategic vision. In your role, you are a strong team player and you have the ability to bring new ideas and best practices to Danone.

Type de contrat	CDI
Télétravail	Non spécifié
Rémunération	50-60 K Euro/an
Client	Danone Benelux
Description de la société	About us

Danone's mission is bringing health through food to as many people as possible and we want to invite people to join the movement for a healthier world. We recognize the power people have to impact the world through their daily choices. Healthy food needs a healthy planet, and this is what our new signature One Planet One Health embodies.

Localisation	Zoetermeer
Pays	Array
Description du profil	About You

We are looking for a passionate and driven Business Systems Analyst Finance to join our ISIT Team in Benelux. Someone who has broad business Financial acumen, has successfully led SAP FI-CO projects in the past. If you can recognize yourself in this description, apply today! <https://workatdanone.com/en/vacancies/744-744>

Minimum of Bachelor's degree in Computer science, Information Systems Management, Business studies or Information Technology. You have at least 4 years experience supporting/using SAP FI-CO. You are a driven, analytical person who can develop in the role. You could either be a technically-minded person with good interpersonal communications skills, or a proactive business analyst with a passion for information systems. You have a natural curiosity for IS systems. You have an eagerness to learn and build understanding of both systems and the people who use them.
